

Virginia Healthcare Emergency Management Program

On September 8, 2018, Governor Northam declared that a [state of emergency](#) exists in the Commonwealth of Virginia based on the need to prepare and coordinate our response for potential impacts from Hurricane Florence. The following provision is included in the Executive Order:

“A license issued to a health care practitioner by another state, and in good standing with such state, shall be deemed to be an active license issued by the Commonwealth to provide health care or professional services as a health care practitioner of the same type for which such license is issued in another state, provided such health care practitioner is engaged by a hospital, licensed nursing facility, or dialysis facility in the Commonwealth for the purpose of assisting that facility with public health and medical disaster response operations. Hospitals, licensed nursing facilities, and dialysis facilities must submit to the applicable licensing authority each out-of-state health care practitioner’s name, license type, state of license, and license identification number within a reasonable time of such healthcare practitioner arriving at the applicable health care facility in the Commonwealth.”

Healthcare facilities operating under this provision **must fill out** the below information and submit to the Department of Health Professions (DHP).

Instructions:

- **Fill out all fields below**
- **Submit both pages to laura.rothrock@dhp.virginia.gov or Fax to (804) 527 - 4434**
