

The Quality Award Program

Prepared by: American Health Care Association
July 2018

FAST FACTS

How the program works

The AHCA/NCAL National Quality Awards Program is a progressive program that is based on the Baldrige Criteria for Performance Excellence. Participants move from the Bronze level, to Silver, and then ultimately to the Gold. Bronze recipients must demonstrate a groundwork for excellence by completing a self-assessment that outlays their organizational priorities and goals. Silver awardees outline their systematic approaches and demonstrate sustainable organizational and process results linked to their key customer requirements, success factors and challenges. Gold recipients represent an elite group by meeting all of the demands of the Baldrige Criteria, they demonstrate the achievement of high levels of performance over time in the areas of: leadership, strategic planning, customer and workforce, operations and knowledge management.

Totals From The Quality Award Program 2007-2017

BRONZE

Commitment to Quality

3,772 total awards

SILVER

Achievement in Quality

711 total awards

GOLD

Excellence in Quality

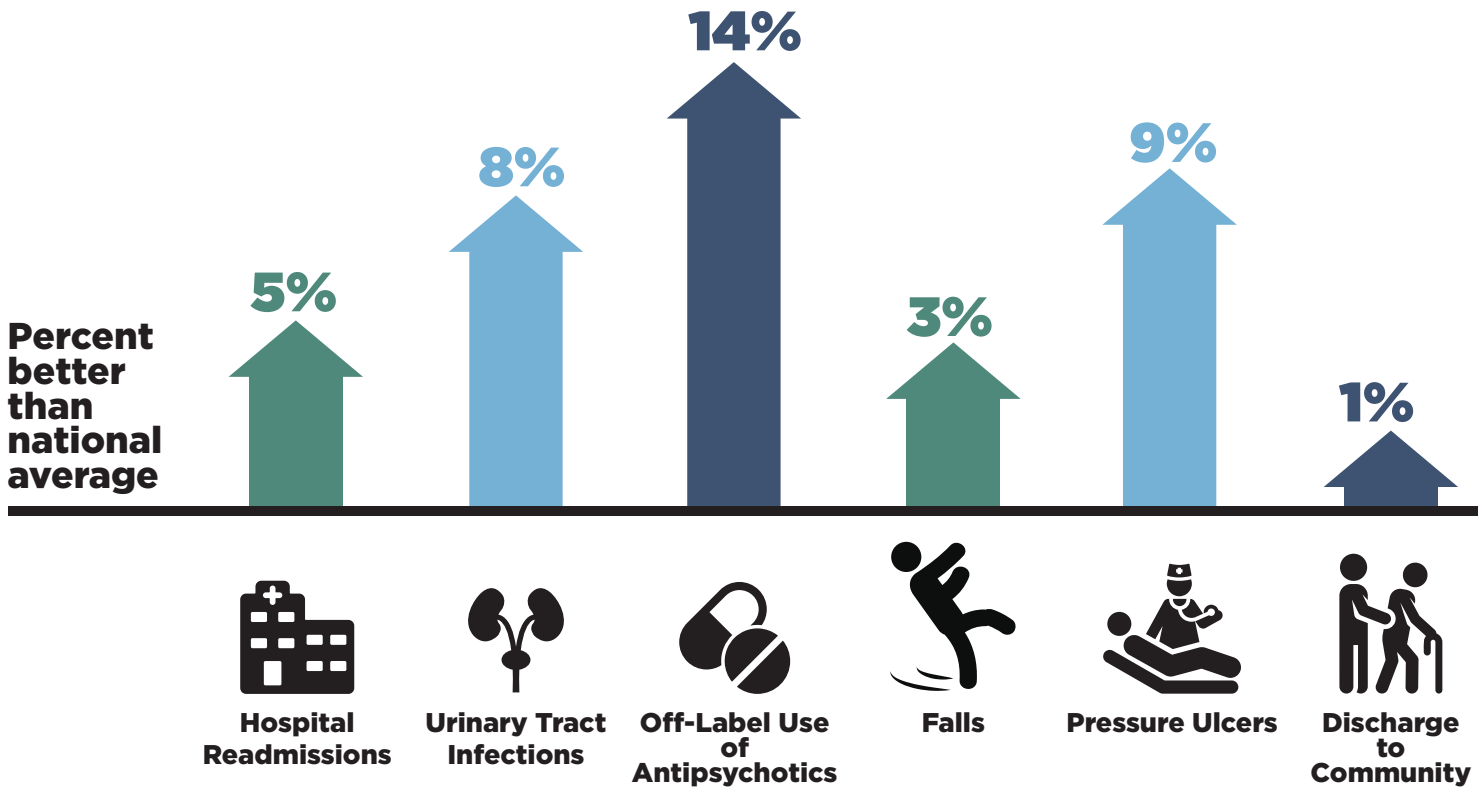

31 total awards

i. Quality performance data from Nursing Home Compare (NHC) and LTC Trend Tracker. The readmissions measure is PointRight Pro30 Rehospitalization and discharge to community is Trend Tracker's MDS-based measure. NHC measures reflects data through 2018-Q1, Pro30 through 2017-Q3, and discharge to community through 2017-Q2. Performance difference is statistically significant (p<0.05) for all measures, except discharge to community.

ii. Star rating data from July 2018 release of Nursing Home Compare. Performance difference is statistically significant (p<0.05) for all measures.
