

Utilizing The Virginia Healthcare Alerting & Status System

Matthew Marry
Emergency Preparedness Project Manager
Virginia Hospital & Healthcare Association
mmarry@vhha.com

A futuristic control room with multiple workstations and large data displays. The room is dimly lit with a blue color scheme. In the center, there is a large circular table surrounded by several black office chairs. In the foreground, there are several workstations with curved desks and multiple monitors displaying various data visualizations, including maps and charts. The background features large wall-mounted displays showing complex data and a globe. The overall atmosphere is high-tech and professional.

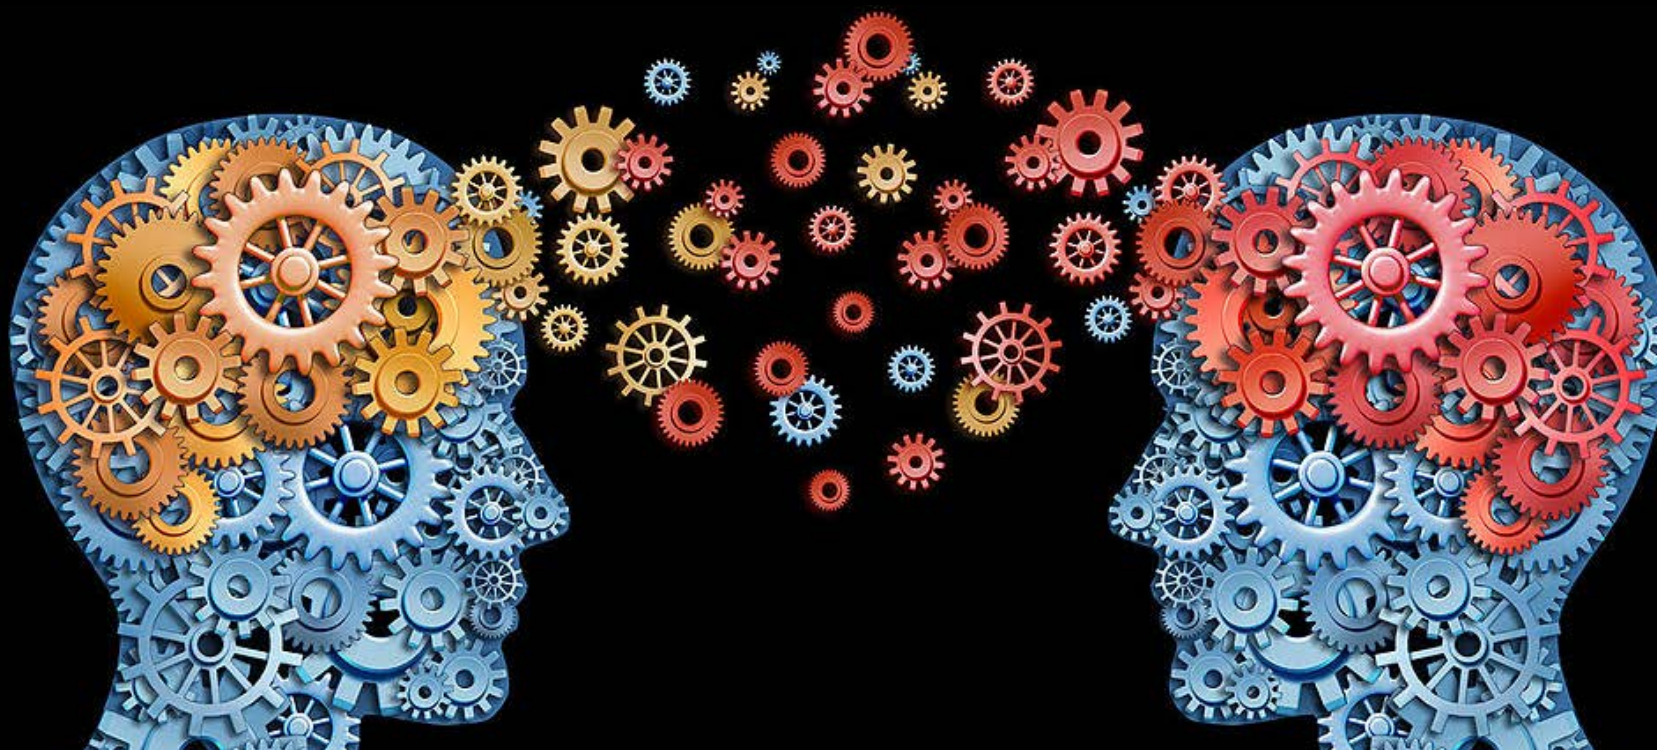

VHASS provides a common operating picture between healthcare facilities, the Regional Healthcare Coordination Centers (RHCC), and the Virginia Department of Health.
