

Advanced Specialty Certification

OSTOMY MANAGEMENT SPECIALIST® COURSE

Live
Education

Each year thousands of individuals of all ages face life changing surgeries to correct gastrointestinal or urinary tract disorders. These individuals require trained professionals to help them successfully adapt to the unique concerns caused by these surgeries. An Ostomy Management Specialist® (OMS) is trained to understand both the physiological and emotional challenges people with stomas face on a daily basis. This course will take you through the anatomy and physiology of the systems involved in fecal/urinary diversions.

EDUCATIONAL COURSES FOR LPN/LVN • RN • NP • PTA • PT

LEARNING YOUR WAY

Live Online or Onsite Class Room

The Wound Care Education Institute offers instructor-led live training in a class room or virtually on an online platform. This course will prepare you for the Ostomy Management Specialist® (OMS) board certified exam administered by the National Alliance of Wound Care and Ostomy® (NAWCO®).

Benefits of Live Education

- Peer-to-peer interaction allows you to learn from their experiences and extends your professional network
- Connect with your instructor during class, learn from their experiences and depth of knowledge
- Implement the knowledge and skills from the classroom into your practice immediately
- Focused class schedule allows you to minimize disruption

Examination Eligibility

Those wishing to take the ostomy credentialing exam through NAWCO must meet the following criteria:

- Active unrestricted license in the profession of:
 - LPN / LVN – OTA, OT, PT, PTA
 - RN, NP – MD, DO, DPM
- Practiced 1 year full-time in the past 5 years
- Complete an NAWCO approved ostomy management specialist course

Do you have credentialing exam questions?

Contact the accrediting board, NAWCO at 877-922-6292 or visit nawccb.org.

Tracy Lynn Rodgers
RN, BSN, LNCC, RN-CLTC, WCC,
DWC

Course Learning Objectives

- List key characteristics required for stoma and peristomal skin assessment.
- Discuss the different types and indications of pouching systems and accessories used with stoma pouching systems.
- Explain the steps of stoma siting procedure for optimal location on abdomen for a stoma.
- Discuss emotions that a new ostomy patient is likely to experience before and after the creation of a stoma or a continent diversion.
- Discuss the etiology, identification and treatment - both conservative and surgical, if appropriate - of the five stoma complications.
- Differentiate between types of fistulas in terms of causative factors, pathophysiology and principles of management.
- List indications, contraindications and procedure steps for colostomy irrigation.
- Describe causes, symptoms and interventions for ileostomy food blockage.
- Identify the purpose, design, location in the intestine, methods of accessing and management of three enterostomal and three enterostomy tubes.
- State how to assess for, prevent and manage four enteral tube complications.
- Discuss conditions in the pediatric patient that may require a fecal or urinary diversion.
- Summarize the management of a pediatric patient with a urinary or fecal diversion.
- Summarize the goals of pre-operative teaching, list what should be covered, and develop an individualized teaching plan for a patient based on an assessment of their learning needs.
- Demonstrate a stoma assessment.
- Demonstrate application, emptying and removal of a cut to fit two-piece pouching system.
- Demonstrate patient teaching methods for application, emptying and removal of a pouching system.
- Demonstrate the "crusting" procedure.
- Explain the goals of post-operative teaching, list what should be covered, and develop an individualized teaching plan based on an assessment of their learning needs.

Continuing Education Statements

The course materials and evaluation form must be completed to receive a certificate of completion.

Nurses: In support of improving patient care, OnCourse Learning (a Relias LLC company) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Relias LLC is approved by the California Board of Registered Nursing, Provider #CEP13791 for 36 contact hours. Certificate must be retained by the licensee for a period of 4 years after course completion

Physical Therapists: Relias LLC (formerly OnCourse Learning) is a licensed physical therapy continuing Education sponsor (#216.000290) by the Illinois Department of Financial and Professional Regulation. Certificates must be retained by the licensee for a period of 5 years after course completion. The Ostomy Management Course is approved for 36 contact hours for physical therapists and physical therapy assistants. Please check with your state for prior approval.
