

Introduction to Activity Management in Long Term Care June 2021

Are you looking for training specifically designed for activity personnel?

Offered virtually for 2021, VHCA-VCAL's *Introduction to Activity Management in Long Term Care* course offers 45 hours of comprehensive training in programming and documentation for activity personnel. You will leave energized with ideas and resources to help you direct the activity program in your facility tailored to the individual needs of those in your community.

Register now to learn how to design programs that are meaningful, fulfilling, and fun from customer service experts, LTC industry consultants, gerontologists, and leaders in Alzheimer's care.

Course Highlights

- Earn 45-hours of hands-on, engaging training for activity professionals in one week.
- Get advice and practical tips on how to design activities that support positive aging, build a sense of community, promote residents' rights, and more.
- Explore how art, music, and cooking activities can be tailored to meet the needs of all.
- Take advantage of opportunities to learn from experts in gerontology, dementia care, and customer service.
- Best practice sharing with other activity professionals.

Who Should Attend?

This program is designed for activity professionals who work in the following settings primarily serving persons 55 years and older: nursing facilities, assisted living facilities, sub-acute, specialized care, or adult day services.

Why Attend?

This course meets all federal and state requirements for activity professionals in Virginia working in either nursing centers or assisted living facilities including:

- the Requirements of Participation for nursing facilities.
- the Standards for Licensed Assisted Living Facilities for Resident Care and Related Services (22 VAC 40- 73- 520 Activity and recreational requirements (2)) and Safe, Secure Environment (22 VAC 40-73-1120 Activities. (F)(5)). In addition, the Virginia Department of Social Service's Division of Licensing Programs has approved this course as a program in adult group activities and in recognizing and assessing the activity needs of residents.

You will also earn credit toward the National Certification Council for Activity Professionals Modular Education Program for Activity Professionals (NCCAP MEPAP) Part 1 certification requirements.
